

😊 Children with Diabetes®

Children with Diabetes was founded in 1995, after the diagnosis of Jeff and Brenda Hitchcock's 24-month-old daughter. That diagnosis brought an immediate need for information, education, and community...and brought about the creation of bringing together families affected by diabetes, both online and offline, to create space for people to thrive after a diabetes diagnosis. Our Friends for Life conferences have been taking place since 2001, and continue on in 2023 and beyond.
