Coming Soon: Locate a CDCES

Beginning this summer, CDBCE will be offering a service to locate a CDCES in your area. CDCESs help people living with diabetes manage their condition. They also collaborate with health care providers.

We're building a better experience for you. Be sure to check back with us later in the summer.

If you're a CDCES, be sure to activate your public profile listing in the portal now, so that individuals living with diabetes and health care providers can find you!

COMING SOON to www.cbdce.org: LOCATE A CDCES

Becoming a CDCES

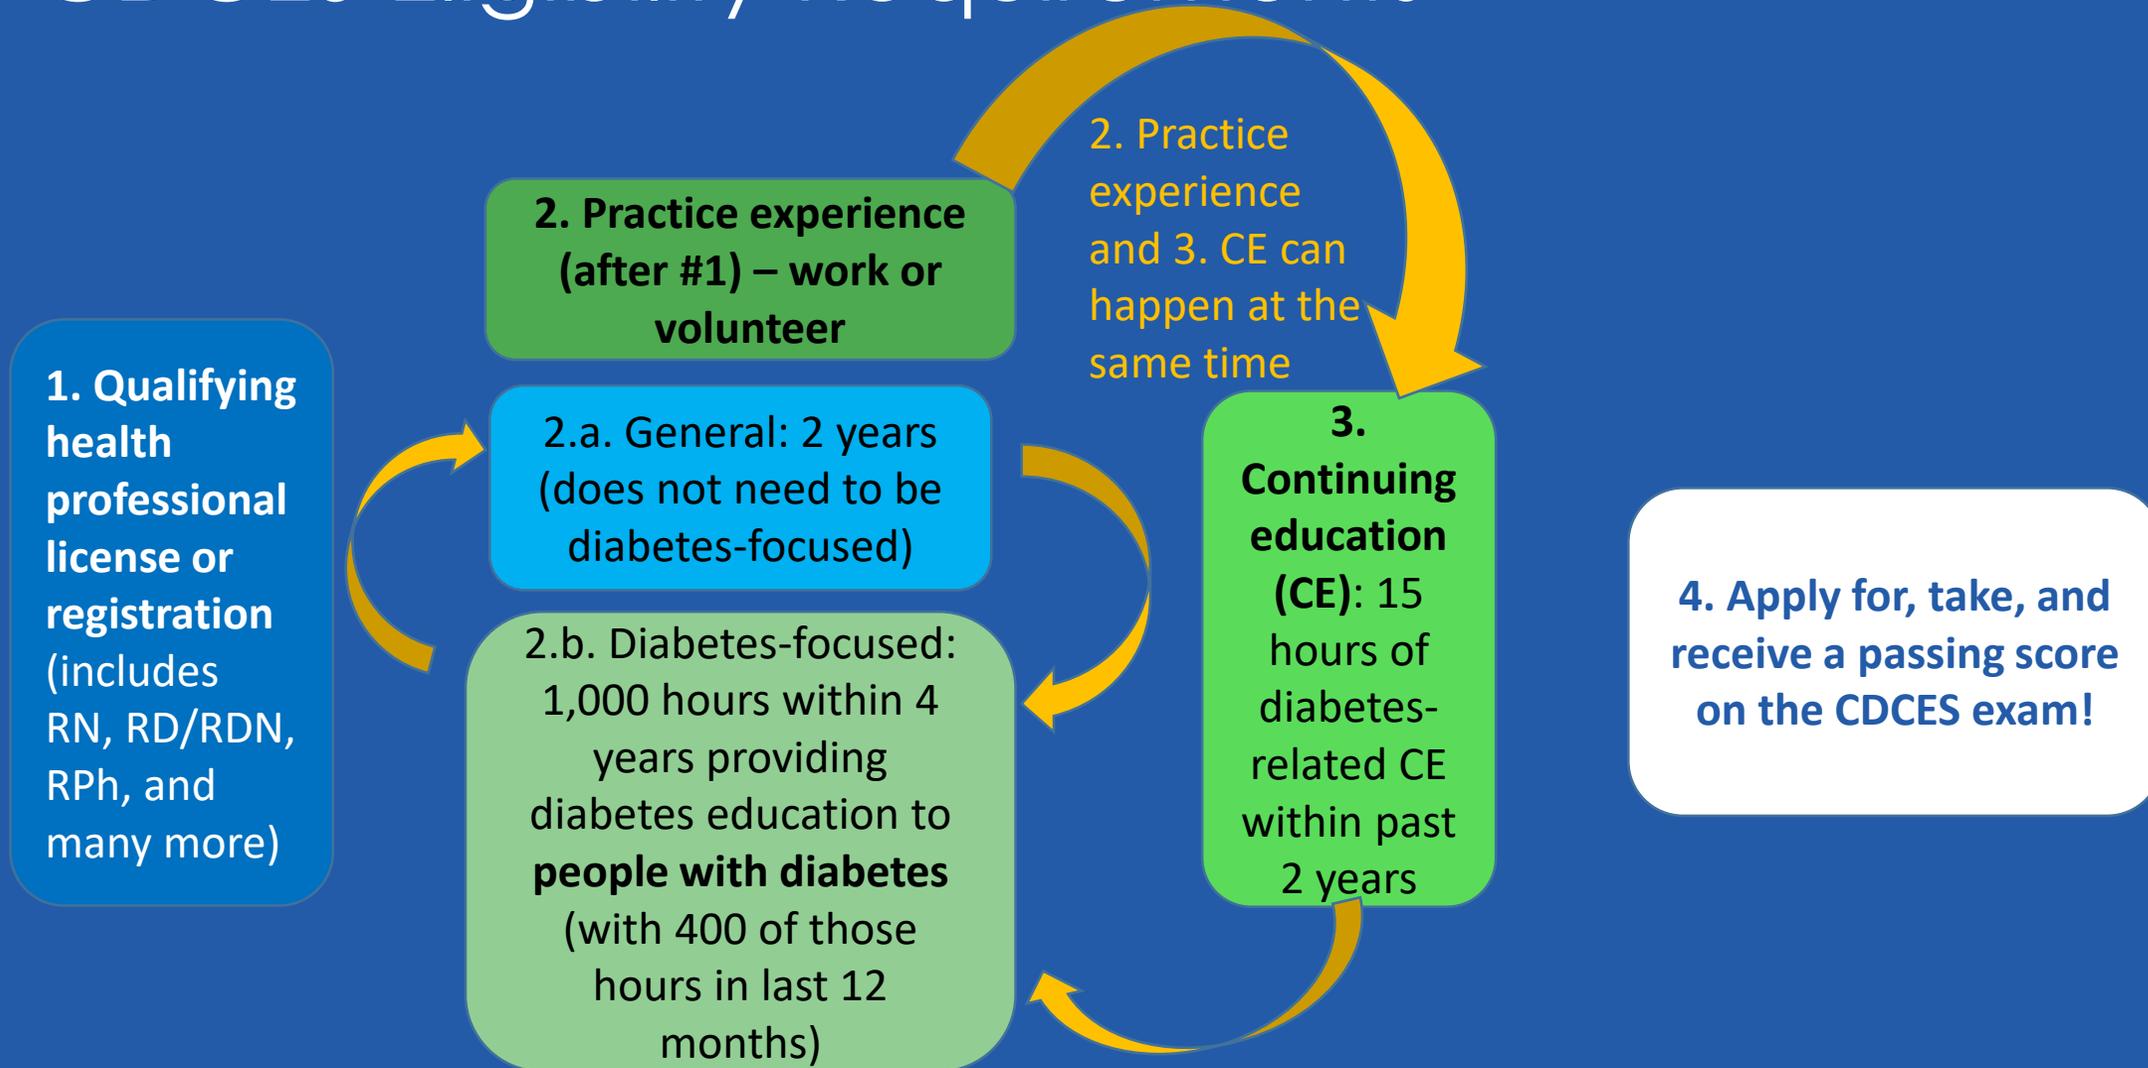

Why Become a CDCES...

- Demonstrate to people with diabetes that the individual holds knowledge **needed** for quality care and education
- Help peers and providers to recognize the individual's role and ability to contribute as a member of the healthcare team
- Distinguish the individual in a competitive market
- Expand the individual's professional and personal opportunities

CDCES Eligibility Requirements

Both 2.a. yearly and 2.b. hourly requirements can, BUT don't have to, be done at the same time

Certification Board for Diabetes Care and Education
330 E. Algonquin Rd, Suite 4
Arlington Heights, IL 60005

Why I Became a CDCES...

“The most rewarding part of being a CDCES is helping people with diabetes overcome barriers and improve their health. My decision to becoming certified was the best career move I have taken as a Registered Dietitian!”

Debra D'Angelo, RDN, CDCES,
Dietitian/Diabetes Educator,
Regal Medical Group, Camarillo, CA

Why I Became a CDCES...

“It is crucial to have a CDCES as a team member in the hospital, as well as, outpatient setting...Not only does the CDCES educate, they also encourage and collaborate on how to manage and improve care. CDCESs are a vital part of the diabetes management team and have the time to spend with patients that physicians do not always have to help achieve the best outcomes.”

Rebecca Morrison, BSN, RN, CDCES
Marietta, GA

Why I Became a CDCES...

“Every CDCES that I have met at local and national meetings are so excited to share their ideas; it is like one big family who really cares about treating people with diabetes and helping each other to do better in our careers. How can someone not be excited to join such a group!”

Julie Stading, PharmD, CDCES
Creighton University, Eagle, NE
